

THRIVE

For everyone at Cavendish, our first priority is to care for every child in a secure, friendly environment enabling them to skip into school and leap into life!

As part of our caring role, we support children's emotional and social learning throughout their time at school. We do this during lesson times, break times and through activities such as sport and extra-curricular activities. We also use the Thrive Approach across the school.

What is the Thrive Approach?

Children cannot always put their needs into words, but the way children behave can tell us a lot about how they are feeling. The Thrive Approach draws on the latest research, from current neuroscience, recent attachment research, current studies of effective learning and current models of child development – in order to help the school to understand the needs being signalled by children's behaviour. It gives us targeted strategies and activities to help them re-engage with learning and life.

Why do we need Thrive?

Unfortunately, like all of us at some point in our lives, children may face challenges that knock them off course. What is needed then is understanding and support to get them back on track. Many children will respond to the care, understanding and support given by parents, family, friends and teachers. However, some children need a little bit extra.

What extra support can Cavendish School offer?

Children who need a little bit of extra help are identified through our whole-class screening process, by class teachers, or through communication with families or outside agencies. For some children there may be an obvious reason why they need a bit of extra support. This might be bereavement, family break down or an identified medical condition such as ADHD. For others, there can be no obvious trigger to why they are finding some aspects of school and/or home life difficult.

Working closely with parents and class teachers, our Thrive Co ordinator; Mrs Mathews will carry out full assessments to identify children's social, emotional and behavioural needs. This helps us to build a bespoke Thrive Action Plan of activities to support their needs.

What is a Thrive Action Plan?

A Thrive Action Plan is a plan of activities tailored to support a child's identified social and emotional learning targets. The activities are one-to-one and include small group relational play and arts based activities designed to help the child feel better about him/herself; become more resilient and resourceful; form trusting, rewarding relationships; be compassionate and empathetic; and/or be able to overcome difficulties and setbacks. They

might include playing in the sand, puppets, cooking, painting, model making, exploring difficult situations through role-play or comic strips, playing strategy games or projects focusing on the child's own interests.

Action Plans are shared with parents and they are encouraged to do some of the activities at home if possible. They are reviewed regularly to see the progress children have made.

So who gets Thrive?

Everyone gets class Thrive activities (although they might not realise it). But if your child needs regular out of class Thrive time, one-to-one or in a small group, you will be consulted and asked for your input into their assessment and Action Plan.

If you want to know more about Thrive, do visit the Thrive Approach website <https://www.thriveapproach.com> or speak to Mrs Sarah Mathews or one of the class teachers.
