1. Policy Aims

- This online safety policy has been written by Cavendish School, involving staff, learners and parents/carers, building on the East Sussex County Council/The Education People online safety policy template, with specialist advice and input as required.
- It takes into account the DfE statutory guidance “[Keeping Children Safe in Education](#)”, [Early Years and Foundation Stage](#), and the East Sussex Safeguarding Children Partnership procedures.
- The purpose of Cavendish School online safety policy is to:
 - Safeguard and protect all members of Cavendish School community online.
 - Identify approaches to educate and raise awareness of online safety throughout the community.
 - Enable all staff to work safely and responsibly, to role model positive behaviour online and to manage professional standards and practice when using technology.
 - Identify clear procedures to use when responding to online safety concerns.
- Cavendish School identifies that the issues classified within online safety are considerable, but can be broadly categorised into three areas of risk:
 - **Content:** being exposed to illegal, inappropriate or harmful material
 - **Contact:** being subjected to harmful online interaction with other users
 - **Conduct:** personal online behaviour that increases the likelihood of, or causes, harm.

2. Policy Scope

- Cavendish School believes that online safety is an essential part of safeguarding and acknowledges its duty to ensure that all learners and staff are protected from potential harm online.
- Cavendish School identifies that the internet and associated devices, such as computers, tablets, mobile phones and games consoles, are an important part of everyday life.
- Cavendish School believes that learners should be empowered to build resilience and to develop strategies to manage and respond to risk online.

5. Education and Engagement Approaches

5.1 Education and engagement with learners

- The setting will establish and embed a progressive online safety curriculum to raise awareness and promote safe and responsible internet online behaviour at school and at home amongst learners by:
 - Ensuring education regarding safe and responsible use precedes internet access.
 - Including online safety in Personal, Social, Health and Economic (PSHE), Relationships and Sex Education (RSE) and computing programmes of study. Details can be found on our website
 - Reinforcing online safety messages whenever technology or the internet is in use.
 - Educating learners in the effective use of the internet to research; including the skills of knowledge location, retrieval and evaluation.
 - Teaching learners to be critically aware of the materials they read and shown how to validate information before accepting its accuracy.

- The setting will support learners to read and understand the acceptable use policies in a way which suits their age and ability by:
 - Displaying acceptable use posters in all rooms with internet access.
 - Informing learners that network and internet use will be monitored for safety and security purposes and in accordance with legislation.
 - Rewarding positive use of technology.
 - Implementing appropriate peer education approaches.
 - Providing online safety education and training as part of the transition programme across the key stages and when moving between establishments.
 - Seeking learner voice when writing and developing online safety policies and practices, including curriculum development and implementation.
 - Using support, such as external visitors, where appropriate, to complement and support our internal online safety education approaches.

5.2 Vulnerable Learners

- Cavendish School recognises that some learners are more vulnerable online due to a range of factors. This may include, but is not limited to children in care, children with Special Educational Needs and Disabilities (SEND) or mental health needs, children with English as an additional language (EAL) and children experiencing trauma or loss.
- Cavendish School will ensure that differentiated and ability appropriate online safety education, access and support is provided to vulnerable learners.
- When implementing an appropriate online safety policy and curriculum Cavendish School will seek input from specialist staff as appropriate, including the SENCO, Child in Care Designated Teacher.

5.3 Training and engagement with staff

We will:

- Provide and discuss the online safety policy and procedures with all members of staff as part of induction.
- Provide up-to-date and appropriate online safety training for all staff on a regular basis, with at least annual updates.
 - Training is provided by annual safeguarding training as well as specific online training

- This will cover the potential risks posed to learners (Content, Contact and Conduct) as well as our professional practice expectations.
- Recognise the expertise staff build by undertaking safeguarding training and managing safeguarding concerns and provide opportunities for staff to contribute to and shape online safety policies and procedures.
- Make staff aware that our IT systems are monitored, and that activity can be traced to individual users; staff will be reminded to behave professionally and in accordance with our policies when accessing our systems and devices.
- Make staff aware that their online conduct outside of the setting, including personal use of social media, could have an impact on their professional role and reputation.
- Highlight useful educational resources and tools which staff should use, according to the age and ability of the learners.
- Ensure all members of staff are aware of the procedures to follow regarding online safety concerns affecting learners, colleagues or other members of the community.

5.4 Awareness and engagement with parents and carers

- Cavendish School recognises that parents and carers have an essential role to play in enabling children and young people to become safe and responsible users of the internet and associated technologies.
- We will build a partnership approach to online safety with parents and carers by:
 - Providing information and guidance on online safety in a variety of formats.
 - This will include offering specific online safety awareness training and highlighting online safety at other events such as parent evenings, transition events, fetes and sports days.
 - Drawing their attention to the online safety policy and expectations in newsletters, letters, our prospectus and on our website.
 - Requesting that they read online safety information as part of joining our community, for example, within our home school agreement.
 - Requiring them to read our acceptable use policies and discuss the implications with their children.

6. Reducing Online Risks

- Cavendish School recognises that the internet is a constantly changing environment with new apps, devices, websites and material emerging at a rapid pace.
- We will:
 - Regularly review the methods used to identify, assess and minimise online risks.
 - Examine emerging technologies for educational benefit and undertake appropriate risk assessments before use in the setting is permitted.
 - Ensure that appropriate filtering and monitoring is in place and take all reasonable precautions to ensure that users can only access appropriate material.
 - Due to the global and connected nature of the internet, it is not possible to guarantee that unsuitable material cannot be accessed via our computers or devices.
- All members of the community are made aware of our expectations regarding safe and appropriate behaviour online and the importance of not posting any content, comments, images or videos which could cause harm, distress or offence to members of the community. This is

clearly outlined in our acceptable use policies and highlighted through a variety of education and training approaches.

7. Safer Use of Technology

- Cavendish School uses a wide range of technology. This includes access to:
 - Computers, laptops and other digital devices
 - Internet which may include search engines and educational websites

 - Email
 - Games consoles and other games-based technologies
 - Digital cameras, web cams and video cameras
- All setting owned devices will be used in accordance with our acceptable use policies and with appropriate safety and security measures in place.
- Members of staff will always evaluate websites, tools and apps fully before use in the classroom or recommending for use at home.
- We will ensure that the use of internet-derived materials, by staff and learners complies with copyright law and acknowledge the source of information.
- Supervision of learners will be appropriate to their age and ability.
 - **Early Years Foundation Stage and Key Stage 1**
 - Access to the internet will be by adult demonstration, with occasional directly supervised access to specific and approved online materials, which supports the learning outcomes planned for the learners age and ability.
 - **Key Stage 2**
 - Learners will be directed by the teacher to online materials and resources which support the learning outcomes planned for the pupils' age and ability.
 - **Key Stage 3 and 4**
 - Learners will be appropriately supervised when using technology, according to their ability and understanding.

7.2 Managing Internet Access

- We will maintain a written record of users who are granted access to our devices and systems.
- All staff, learners and visitors will read and sign an acceptable use policy before being given access to our computer system, IT resources or internet.

7.3 Filtering and Monitoring

- Note: A guide for education settings about establishing 'appropriate levels' of filtering and monitoring can be found at: <https://www.saferinternet.org.uk/advice-centre/teachers-and-school-staff/appropriate-filtering-and-monitoring>

7.3.1 Decision Making

- Cavendish School governors and leaders have ensured that our setting has age and ability appropriate filtering and monitoring in place, to limit learner's exposure to online risks.

- The governors and leaders are aware of the need to prevent “over blocking”, as that may unreasonably restrict what can be taught, with regards to online activities and safeguarding.
- The leadership team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate.
- Our decision regarding filtering and monitoring has been informed by a risk assessment, considering our specific needs and circumstances.
- Changes to the filtering and monitoring approach will be risk assessed by staff with educational and technical experience and, where appropriate, with consent from the leadership team; all changes to the filtering policy are logged and recorded.
- The leadership team will ensure that regular checks are made to ensure that the filtering and monitoring methods are effective and appropriate.
- All members of staff are aware that they cannot rely on filtering and monitoring alone to safeguard learners; effective classroom management and regular education about safe and responsible use is essential.

7.3.2 Filtering

- Education broadband connectivity is provided through (BT Business Broadband).
- We use Smoothwall, which blocks sites which can be categorised as: pornography, racial hatred, extremism, gaming and sites of an illegal nature. The filtering system blocks all sites on the [Internet Watch Foundation](#) (IWF) list.
- We work with (BT Business Broadband) to ensure that our filtering policy is continually reviewed.
- If learners discover unsuitable sites, they will be required to:
 - Turn off monitor/screen and report the concern immediate to a member of staff.
 - The member of staff will report the concern (including the URL of the site if possible) to the DSL (or deputies) and/or technical staff.
 - The breach will be recorded and escalated as appropriate.
 - Parents/carers will be informed of filtering breaches involving their child.
- Any material believed to be illegal will be reported immediately to the appropriate agencies, such as the IWF, Sussex Police or CEOP.

7.3.3 Monitoring

- We will appropriately monitor internet use on all setting owned or provided internet enabled devices. This is achieved by through our monitoring systems which report to ICT helpdesk on a daily basis where attempts to access inappropriate material occur and to the DSL where the email system is used inappropriately.
- If a concern is identified via monitoring approaches we will ensure DSL or deputies will respond in line with the child protection policy.
- All users will be informed that use of our systems can be monitored and that all monitoring will be in line with data protection, human rights and privacy legislation.

7.4 Managing Personal Data Online

- Personal data will be recorded, processed, transferred and made available online in accordance with General Data Protection Regulations and Data Protection legislation.
 - Full information can be found in Data Protection and Information Security

7.5 Security and Management of Information Systems

 - Virus protection being updated regularly.
 - Encryption for personal data sent over the Internet or taken off site (such as via portable media storage) or access via appropriate secure remote access systems.
 - Not using portable media without specific permission; portable media will be checked by an anti-virus /malware scan before use.
 - Not downloading unapproved software to work devices or opening unfamiliar email attachments.
 - The appropriate use of user logins and passwords to access our network.
 - Specific user logins and passwords will be enforced for all but the youngest users. (Note: this should be in place for all except Early Years and Foundation Stage children and some learners with SEND)
 - All users are expected to log off or lock their screens/devices if systems are unattended.

7.5.1 Password policy

- All members of staff will have their own unique username and private passwords to access our systems; members of staff are responsible for keeping their password private.
- From year 7, all learners are provided with their own unique username and private passwords to access our systems; learners are responsible for keeping their password private.
- We require all users to:
 - Use strong passwords for access into our system. A strong password:
Must be at least 8 characters long. It should not contain any of your personal information — specifically your real name, user name. It must be very unique from your previously used passwords. It should contain characters from the four primary categories, including: uppercase letters, lowercase letters, numbers, and characters.
 - Change their passwords annually
 - Always keep their password private; users must not share it with others or leave it where others can find it.
 - Not to login as another user at any time.

7.6 Managing the Safety of our Website

- We will ensure that information posted on our website meets the requirements as identified by the Department for Education (DfE). We will ensure that our website complies with guidelines for publications including: accessibility; data protection; respect for intellectual property rights; privacy policies and copyright.

- The administrator account for our website will be secured with an appropriately strong password.
- We will post appropriate information about safeguarding, including online safety, on our website for members of the community.

7.7 Publishing Images and Videos Online

- We will ensure that all images and videos shared online are used in accordance with the associated policies, including (but not limited to) the: cameras and image use, data security, acceptable use policies, codes of conduct/behaviour, social media and use of personal devices and mobile phones.

7.8 Managing Email

- Access to our email systems will always take place in accordance with data protection legislation and in line with other policies, including confidentiality, acceptable use policies and the code of conduct/behaviour policy.
 - The forwarding of any chain messages/emails is not permitted.
 - Spam or junk mail will be blocked and reported to the email provider.
 - Any electronic communication which contains sensitive or personal information will only be sent using secure and encrypted email.
 - Setting email addresses and other official contact details will not be used for setting up personal social media accounts.
- Members of the community will immediately inform Dave Kilby or Kyra Siddall-Ward if they receive offensive communication, and this will be recorded in our safeguarding files/records.

Excessive social email use can interfere with teaching and learning and will be restricted; access to external personal email accounts may be blocked on site.

7.8.1 Staff email

- The use of personal email addresses by staff for any official setting business is not permitted.
 - All members of staff are provided with an email address to use for all official communication.
- Members of staff are encouraged to have an appropriate work life balance when responding to email, especially if communication is taking place between staff, learners and parents.

7.8.2 Learner email

- Learners will use provided email accounts for educational purposes.
- Learners will sign an acceptable use policy and will receive education regarding safe and appropriate email etiquette before access is permitted.
- Whole-class or group email addresses may be used for communication outside of the setting.

7.9 Live Stream Lessons for Remote Learning

- Live stream is a somewhat broad term and in some cases, can refer to a platform where the teacher and the children are all linked into a video call/conference and see one another. In other cases, it may refer to a live broadcast, where only the teacher, or whoever is providing the content, is visible and the children are viewing the content, without being seen themselves. In the latter example, although not linked into the broadcast with their images, the children may be able to interact through a live chat function.
- When planning the use of live stream platforms within remote learning our school will:
 - Consider whether the technology is available to children/families and make alternative arrangements for provision where necessary.
 - Ensure that staff are trained to use the technology.
 - Ensure that children's behaviour/interactions are managed in line with the expectations of the school behaviour policy.

- Risk assess the platform being used and consider whether there are functions, such as live chat, pupil's use of video camera, or the recording of the session, which need to be disabled or which require further measures to support their appropriate use.

The above points are relevant to live stream in its broadest sense. What follows next is more relevant, but not exclusively, to the use of platforms allowing two-way video interaction between all users.

- Two members of staff will be 'within the room' when conducting a live stream session with pupils. If the session is being run from school and both adults are there, they can be physical within the same room. If one or both adults are working remotely then this means that two adults will need to be present within the video call, and they should both be there before pupils dial.
- The second member of staff is there to provide a safeguard for both the pupils and the teacher, so does not need to be a curriculum specialist.
- The second member of staff could act additionally as technical/behaviour support, in terms of monitoring pupils' interactions and ensuring they are not using chat or recording features if these cannot be disabled.
- Sessions will be planned and scheduled for during school hours.
- Parents will be contacted to advise that the session is taking place and they and the child should consent to an acceptable use agreement covering issues such as not recording the session, not using the live chat feature, being appropriately dressed etc.
- Only school devices and school contact numbers/emails will be used for communications and running the session.
- Only live streaming platforms approved by SLT will be used.
- Staff will dress professionally and choose a neutral background for their video stream.
- Pupils' cameras should be set to Off during the live lesson.
- Pupils should be dressed appropriately e.g. clothes they might wear for a non-uniform day, not pyjamas.
- Pupils should live stream from a suitable location within their household, not bedrooms.
- Staff behaviour and language will be entirely in line with the staff code of conduct.
- All other school policies/practices should be followed, notably the safeguarding and child protection policy so should there be any welfare concerns about the child these should be brought to the attention of the DSL without delay.

Live Stream from other providers

- When directing learners to any content from other providers, its suitability and appropriateness will be checked.
- Where that content may be live streamed, the safeguarding aspect of how that content is being delivered will be considered e.g. how children are able to interact, how is content and interactions being monitored/moderated etc?
- For one off live stream events, the content will be monitored by a member of staff along with the interactions/behaviour of the learners taking part.
- When/if multiple sessions are being run at various times during the school day, school leaders will check that they are satisfied with the safeguarding policy of the provider(s) and, then, monitor some sessions to check they are in accordance with the policy.

Using video call for 1:1 sessions with children

- The school may consider using 1:1 video call sessions to support interventions with children such as mental health support or counselling.
- These sessions will only be provided where they have been risk assessed and approved by SLT.

- Where the communication with an individual child does not require the confidentiality of a counselling session, there will be two adults involved; this will provide a safeguard for the adults and the children.
- These two adults will either be physically in the same room, with the second member of staff being referenced to the child so that they are aware, or, where staff are working remotely, they will both be within the virtual room of the meeting.
- In either case both adults will be present before the child is admitted to the online session.

7.10 Management of Learning Platforms

- Cavendish School uses Google Classrooms and Class Charts as its official learning platforms.
- Leaders and staff will regularly monitor the usage of the Learning Platform (LP), including message/communication tools and publishing facilities.
- Only current members of staff, learners and parents will have access to the LP.
- When staff and/or learners leave the setting, their account will be disabled or transferred to their new establishment.
- Learners and staff will be advised about acceptable conduct and use when using the LP.
- All users will be mindful of copyright and will only upload appropriate content onto the LP.
- Any concerns about content on the LP will be recorded and dealt with in the following ways:
 - The user will be asked to remove any material deemed to be inappropriate or offensive.
 - If the user does not comply, the material will be removed by the site administrator.
 - Access to the LP for the user may be suspended.
 - The user will need to discuss the issues with a member of leadership before reinstatement.
 - A learner's parents/carers may be informed.
 - If the content is illegal, we will respond in line with existing child protection procedures.
- Learners may require editorial approval from a member of staff. This may be given to the learner to fulfil a specific aim and may have a limited time frame.
- A visitor may be invited onto the LP by a member of the leadership; in this instance, there may be an agreed focus or a limited time slot.

7

7.11 Management of Applications (apps) used to Record Children's Progress

- We use SIMS, Class charts and 4matrix to track learners' progress and share appropriate information with parents and carers.
- The Headteacher is ultimately responsible for the security of any data or images held of children. As such, they will ensure that the use of tracking systems is appropriately risk assessed prior to use, and that they are used in accordance with data protection legislation, including the General Data Protection Regulations (GDPR) and Data Protection legislation.
- To safeguard learners' data:

- Only learner issued devices will be used for apps that record and store learners' personal details, attainment or photographs.
- Personal staff mobile phones or devices will not be used to access or upload content to any apps which record and store learners' personal details, attainment or images.
- Devices will be appropriately encrypted if taken off site, to reduce the risk of a data security breach, in the event of loss or theft.
- All users will be advised regarding safety measures, such as using strong passwords and logging out of systems.
- Parents and carers will be informed of the expectations regarding safe and appropriate use, prior to being given access; for example, not sharing passwords or images.

8. Social Media

8.1 Expectations

- The expectations regarding safe and responsible use of social media applies to all members of Cavendish School community.
- The term social media may include (but is not limited to): blogs; wikis; social networking sites; forums; bulletin boards; online gaming; apps; video/photo sharing sites; chatrooms and instant messenger.
- All members of Cavendish School community are expected to engage in social media in a positive, safe and responsible manner.
 - All members of Cavendish School community are advised not to publish specific and detailed private thoughts, concerns, pictures or messages on any social media services, especially content that may be considered threatening, hurtful or defamatory to others.
- We will control learner and staff access to social media whilst using setting provided devices and systems on site.
- The use of social media during setting hours for personal use *is* permitted at break and lunch times. Staff can also access social media when they are not teaching or working with pupils in any format.
 - Inappropriate or excessive use of social media during setting hours or whilst using setting devices may result in disciplinary or legal action and/or removal of internet facilities.
- Concerns regarding the online conduct of any member of Cavendish School community on social media, should be reported to the DSL (or deputy) and will be managed in accordance with our anti-bullying, allegations against staff, behaviour and child protection policies.

8.2 Staff Personal Use of Social Media

- The safe and responsible use of social networking, social media and personal publishing sites will be discussed with all members of staff as part of staff induction and will be revisited and communicated via regular staff training opportunities.
