## VIRTUAL PARENT'S EVENING DAY

When using EduLink One desktop option for virtual / video meetings please use Google Chrome, not Internet Explorer.

### What to do on the day

Once you have set up the event and all the bookings have been made, participants will see a **start appointments** button when clicking on the event.

When clicking on the START APPOINTMENT button the meeting screen will appear. The remote video box will remain blank until it's time to connect, but you will be able to see your picture in the local video box. You can turn your video and sound on and off if needed with the controls.

This screen had a countdown, remote video box, a local video box, video controls and a schedule
